NAZIS OCCUPY TOULON

But All French Ships In Harbour Sunk

LONDON, Nov. 27.

The Vichy radio to-day announced that on Hitler's orders Toulon harbour, the French Mediterranean naval base where many French warships are lying, has been occupied by the Germans.

The occupation took place last night. Marshal Petain has been informed by letter.

BERLIN:—The German 'communique' says that part of the French fleet scuttled. French troops offered resistance to German and Italian forces.

HITLER'S LETTER

LONDON:—The Vichy radio broadcast the following letter from Hitler to Marshal Petain: "On November 12. 1942. orders were given by the French authorities to the defences at Toulon not to open fire in the event of an Anglo-American landing in this town The existence of this order has been proved. I have given orders that naval and army units of the French forces are to be immediately demobilised. Marshal von Rundstedt will be in charge of all measures deemed necessary and will take all decisions in the French territory.

NAZI PLANES OVER TOULON

The Vichy radio says that a big wave of German bombers flew over Toulon early this morning, dropping flares to illuminate the French warships Other bombers dropped magnetic mines at the entrance to the roadstead.

Further German bombers dropped explosive bombs on fortifications around the port. Anti-aircraft guns immediately opened fire on the machines, while certain warships tried to leave their moorings to move out.

At the same time, however, armoured columns coming from the west arrived by road in the main harbour which they occupied immediately.

ALL SHIPS SCUTTLED

The Vichy radio announces that all French ships in Toulon harbour have been sunk.

The Vichy agency announced that by the orders of Admiral de la Borde vessels of the French squadron at Toulon scuttled themselves

It adds that at 10.00 there was not one French vessel afloat.

At 04.00 this morning German troops entered Toulon Armoured cars proceeded to the arsenal entering by Castigneau Gate At this moment Admiral de La Borde gave order to scuttle which was immediately carried out.

PART OF FLEET SCUTTLED

Part of the French fleet has been scuttled in the harbour of Toulon naval base following the German announcement that they are marching in to take control of the fleet. This was officially revealed in Berlin to-day in a German 'communique, adding that French troops offered resistance to German and Italian forces which marched in.

"Since the early hours of this morning", said the 'communique' "the town and port of Toulon has been firmly in the hands of our troops. Despite orders to the contrary given by French Government, part of the French fleet was scuttled."

It is thought in Fighting French circles in London that Admiral Abrial, Vichy Navy Secretary, is not personally responsible for the scuttling order, but that he is in sympathy with it.

The Fighting French say that it has always been the intention of the French fleet to resist any German bid to take it over. This determination has been unaffected by political differences and Admiral Abrial has shared it.

ALLIES ONLY TEN MILES FROM TUNIS

The New York radio quoting a message from North Africa said that the Allies are only ten miles from Tunis. Allied forces which included considerable detachments of French troops, were supported by a large number of tanks and a powerful air umbrella.

In Tunisia the British First Army is fighting on the outer approaches of Tunis and Bizerta.

Berlin says that British columns supply lines are being bombed at points only fifteen and twenty miles from the city.

DOCKS RAIDED

CAIRO: The R.A.F. raided docks at Tunis on Wednesday night as also Homs and Tripoli in daylight yesterday, it is officially announced.

To-day's Middle East joint war 'communique' states: "There is nothing to report from our land forces. Air activity over Libya was on a small scale yesterday. A large force of our medium bombers attacked the landing ground at Marble Arch, west of El Agheila, on the night of November 25|26. Bombs fell among dispersed aircraft causing fires.

Tunis docks were successfully raided by our bombers on the same night. Petrol dumps and

Tunis docks were successfully raided by our bombers on the same night. Petrol dumps and oil tanks were fired and direct hits were scored on railway installations, marshalling yards and warehouses. Ships in the harbour in Homs and Tripoli received direct hits during daylight attacks by our heavy bombers.

A vessel at Tripoli was set on fire and one at Homs overturned. Yesterday a north bound Junkers 52, carrying troops, was attacked by our twin engined fighters and shot down into the sea off Cape Bon in Tunisia. An enemy schooner was attacked and damaged off the coast of Tunisia.

From these operations all our aircraft returned to base."

LULL IN LIBYA

LONDON: There is a temporary lull over the Libyan battlefield as the Eighth Army gathers forces for the assault on the El Agheila line, should Rommel decide to make a last stand there.

In view of the great distance between the railhead and the advance forces of the Eighth Army, it is not surprising that time is required for the accumulation of stores and supplies before General Montgomery launches his attack upon enemy positions at El Agheila, writes Reuter's Military Correspondent. The weather certainly seems to have improved, judging by the amount of air activity reported yesterday, and this improvement will no doubt also facilitate transports.

Though it is not definitely established that Rommel is going to fight to the bitter end at El Agheila, he is obviously determined to fight at least a rearguard action in this neighbourhood. While Agheila has been compared with El Alamein, it will certainly not be as strongly equipped defensively as were the German lines there, seeing that the German army has lost fully four-fifths of its equipment and supplies.

'DUCE' TAKES OVER

MOSCOW: Bastico Commander-in-Chief of the Italian forces in North Africa has been relieved of his command, according to information reaching the Soviet news agency. Mussolini is reported himself to have assumed the command of Libya.

BERNE: Air-raid alerts were sounded twice at Lausanne and Geneva last night.—Reuter.

The Half-Column
By "Dim"

Released to-day and published elsewhere in this paper is a manifesto over the signatures of 1,000 Parsees. Among the signatures I was pleased to see those of: Drs. P. C. Bharucha and Gilder and Bacha, Mr. K. F. Nariman, the progressive Dastur Bode, all the Parsee press (with the exception of the "Jame-Jamshed"!!) and many other individuals who may be regarded as the intelligentsia of the community.

Good work, boys. This is the sort of language one wants to read—the only hope of the survival of this community in an uncertain future.

In town to-day is Jit of Kapurthala, now heading South Americaward as Secretary to the Indian Trade Commissioner, a post filled by the well-known Jute magnate of Calcutta, Mr. Modi. Jit speaks Spanish like a bull. And he can make a pass like a matador—or should I say a rush! In fact when I heard of Jit's new appointment I felt confident that the seeds of Indian friendship would be well-planted in the warm soil of Latin America.

AMONG LONDON'S POOR

Soviet Ambassador In London Hospital

(From Our Own Correspondent.)

LONDON, Nov. 27.

A quiet medium-sized man entered the London Hospital on November 22 and registered under the name of Maiske. The House Surgeon insisted that the patient be given a private ward but the patient insisted on being placed amidst London's poor patients in the public ward. Nurses were puzzled that the patient should protest against special treatment but the patient finally compromised by agreeing to share the ward with another patient.

The patient was suffering great pain from a perforated ulcer but smiled when the fellow patient talked. Later the King's surgeon came in and other eminent surgeons followed. They insisted that the patient be removed to a private ward, and the patient moved as he was wheeled out through the lines of beds containing poor patients he smiled towards them.

When I asked the patient who shared the ward with Maiske, how he liked him, he said "Nice chap". I told him Russians were doing great work that they had Germans over run, he smiled, whispering something "Nice chap, Maiske."

The surgeons later successfully operated upon Maiske, who's progressing well. Nurse told me that he did not look important but King's doctors had not visited them for months. So patient must be important. Yes Maiske is an important patient, because he is Maisky, Soviet Ambassador

No Recurrence Of Dollar Diplomacy

Willkie Speaks Out At Soviet Aid Fund Rally

(From Our Own Correspondent)

LONDON, November 27.

Speaking at a rally in aid of the Russian Fund at Toronto, Mr Willkie declared that the peoples of United Nations must define their purposes in waging this war in order to reach common understanding of what they fight for, what they hope for. Otherwise they risk having sacrificed and suffered to win the war for no purpose. During his tour on the battlefronts, he found people determined to win but "I also found worry and doubt in the hearts and minds of people". Last war ended with Armistice only owing to confusion among world leaders but during this war, there were new common purposes in the minds of men living far apart as citizens of Great Britain and free Commonwealth of Nations, Americans and Russians. Mr. Willkie paid tributes to "Your Russian Allies" who by their skill and fortitude have shown that their system of Government had tough and sinewy strength which comes not from leaders but from people. After asking whether Allies were prepared to carry out their avowed programme Mr. Willkie said, we must guard against the recurrence of the Dollar and Pragmatic diplomacy. We must educate ourselves to accept the economic change which must take place in the world. We don't need to fear Russia We need to learn work with her against our common enemy Hitler. We need to learn to work with her in the world after war.

MUNITION DUMPS BLOWN UP

LONDON, Nov. 27.

The Vichy radio says that the French at Toulon blew up the coastal batteries, navy arsenal, munition dumps and oil tanks.—Reuter.

LEND-LEASE NIGHTMARE

(From Our Correspondent.)

LONDON, Nov. 26.

Addressing the National Union of Manufacturers, Sir Patrick Hannon declared that the Lease and Lend system struck a major blow at least for the time being at a wide range of British enterprise whose prosperity was identical with her export trade. "Many of us," he said, "may be forgiven if we view with some anxiety the gravity and complexity of the problems which arise with our Dominions and overseas Empire, when the Atlantic Charter must be examined in the light of its effect over British competitive power and over means of livelihood of vast masses of our fellow countrymen and women. Many of us ask ourselves seriously what is the fate of the Ottawa resolutions? How shall we protect marketing primary products and raw materials of our own kith and kin scattered over British territory?"

The Government of Bombay has ordered under the Defence of India Rules that with effect from December 1, 1942, no person shall manufacture 'Bura' sugar in the Province of Bombay, except under and in accordance with the conditions of a licence granted by the Director of Civil Supplies, Bombay.

Germany Faces Greatest Military Disaster

(FROM OUR OWN CORRESPONDENT)

LONDON, Nov. 27.

For several hours last night and early this morning the tone of victory rang through almost all Moscow radios in different broadcasts, including the playing of music and victory songs composed by the Russian people.

Poets recited poetry composed in honour of Stalingrad and the "service of the Cossack." A poet recited the verse "Honour the army that's now freeing my land from the German beasts".

The radio also announced that peasants met the advancing Red Army men with cartloads of bread and other gifts from various parts of the country. Output in the factories all over the country continues to rise tremendously.

GERMANY FACES DISASTER

NEW YORK:—Germany is facing the greatest military disaster of war," writes Major Fielding in today's 'New York Herald Tribune'.

"The Russian counter-offensive in the Stalingrad area has established Russian forces in what appears to be in the firm control of railway by which the German siege army was supplied. The Russians are rapidly reducing the interior of the geat Don River bend to their control. It is difficult to see how German troops caught in the corridor between the rivers Don and Volga can hope to get away."

TERRIFIC RED OFFENSIVE

STOCKHOLM:—The Soviet offensive between the Velikjie Luki and Toropetz has been launched with "unheard of strength and on a broad front," according to the Berlin correspondent of the German-controlled Scandinavian Telegraph Bureau He adds that the Russians attacking with large masses of infantry and tanks, have succeeded in breaking through in some places.

SOVIET ATTACKS CONTINUE

LONDON: The German radio this morning said: "South-west of Stalingrad and in the great Don bend fighting is still on a large scale and major Soviet attacks with strong forces continue unabated."

The Russians succeeded in making "a fairly deep penetration' on the Toropetz front. The Russians used "massive tank forces."

TOWARDS LATVIAN FRONTIER

Berlin reports of a new Soviet offensive north-west of Moscow, while not confirmed by the Russians, imply a very serious threat to the German centre, writes Reuter's military correspondent. According to Berlin, the Russians have already reached the area of Velikl Lukl, a most important key centre about 100 miles north-west of Smolensk and slightly less distant from the Latvian frontier. Although the Germans claim to have been expecting this offensive, it seems to have had the tremendous weight to smash through this well-defended area.

Until more precise information comes to hand it is difficult to appraise either the objective or the results of the new Russian move, although it is obviously of great importance in German eyes.

NO SIGN OF GENERAL RETREAT

Walter Kerr, C. B. S. correspondent, in a broadcast from Moscow to-day said: "In the major offensive in Stalingrad area the Red Army has certainly put out of action more than 200,000 enemy officers and men. The Germans, however, have not yet shown any sign of a general withdrawal. They are retreating only when they are forced to retreat and are holding on when they can."

MOSCOW 'COMMUNIQUE'

MOSCOW: To-day's Soviet mid-day 'communique' states: "During the night of November 26/27, our troops in the Stalingrad area overcoming the enemy's resistance continued their offensive in the same direction as before."

A supplement to the 'communique' announces: "In the north sector of Stalingrad the Russians occupied four large blocks of houses, annihilating more than 250 Germans. In the factory area the Russians made some advance and during the night annihilated more than 700 German officers and men. North-west of Stalingrad, Soviet troops continued to advance killing over 1,000 Germans in one sector. Three German planes in working order were captured. In another sector Soviet Tanks and infantry destroyed 66 tanks and 22 planes.

Soviet troops which captured a railway junction seized 19 locomotives and 100 trucks and several ammunition dumps. South-west of Stalingrad our troops carried out successful offensive operations. As a result of a night battle one of our formations annihilated some 600 enemy officers and men. Many prisoners were taken.

South-east of Nalchik our troops consolidated their positions. On the north-western front desultory artillery duels took place.

'ORDER OF LENIN' FOR 13TH GUARDS

Maj.-Gen. Rodimtsev, received the 'order of Lenin' to-day on behalf of his division, the Thirteenth Guards Infantry Division in the cellars of a building in Stalingrad.

Parsis Demand Immediate Freedom

Release Leaders And Start Negotiations

The following manifesto signed by many prominent Parsis has been issued:

"We, the undersigned members of the Parsi Community have read Mr. Attlee's statement in the House of Commons on the 8th October 1942 wherein he said: "There are a number of extremely effective minorities who must be considered. There are the Sikhs, the Parsis, the Princes and the population of the Indian States." May we say that, following the lead given by our great leaders like Dadabhai Naoroji, Sir Pherozshah Mehta and Sir Dinshah Watcha, we Parsis have always asserted that we are Indians first and have asked for neither separate representation in Legislative or Municipal bodies, nor any special treatment in the services.

This was our stand even at the Round Table Conference. Gandhiji made a special reference to this and said that the Parsis were the only minority that have never asked for separate representation.

May we now emphasize that in these days it is absolutely essential that we should stand by this self-same principle and policy? Expediency and policy apart, on moral ground we clearly see that our future is indissolubly linked with that of our sister communities.

We, therefore, whole-heartedly support the demands of all political parties, commercial and industrial bodies, that India must achieve, here and now, her freedom which is overdue, particularly at this hour, so that with the glow of freedom burning within her, she may effectively resist any foreign aggression To this end, we feel that it is very necessary that the accredited leaders of the country should be released immediately and negotiations started with them on the basis of declaring India a free country."

This manifesto bears over 1,000 signatures. Among the prominent signatories are Professor P. A. Wadia, Mr. D. N Bahadurji, ex-Advocate General of Bombay, Dr. M. D. D. Gilder, ex-Minister of Bombay, Dr. P. C Bharucha, ex-Sheriff of Bombay, Mr. K. F. Nariman, Mrs. Goshiben Captain, Kavi A. F. Khabardar, President-elect of the 14th Gujarati Shatiya Parishad, Mr. K. R. P. Shroff, President of the Native Shares and Stock Brokers' Association, Dr. Irach Taraporewala, Dasturji F. A. Bode, Dr. Mrs. Gilder, Mr. A F. S. Talyarkhan, Mr. S. H. Jhabvala, Mr. P. B. Godrej, editors of "Bombay Samachar," "Kaiser-i-Hind," "Rast Rehbar", "Mumbai Vartman", "Canj Vartman", "Blitz" "Rathestar," "Roj-Nameh", Mr. D. F. Karaka, several professors like Dr. Thoothi, Dr. B. H. Mehta, Mr. R. D. Choksi, Mr. J. C. Daroowala, prominent members of the medical profession like Dr. B. P. Banaji, Dr A. P. Bacha, Dr. Rustom Jal Vakil and several solicitors and advocates. Majority of the intelligentsia have responded well. More signatures are being collected.

Several persons, holding high positions and in service, although they have not signed the manifesto are in complete sympathy with it.

City Police 'A' Go Down To R. I. N.

City Police 'A' went down fighting to the R. I. N. in yesterday's first division League fixture by the odd goal in three. Despite the fact that the Police had a strong defence in Jameson and Alexander, the speed of the opposing forwards created sufficient openings for the R.I.N. to get on top.

At half time, the Navy led by a goal, but the Police, as the result of a fine combined movement, drew level midway in the second half. A few minutes later, however, the Navy notched their winning goal.

Result:—
R. I. N. ..... 2 goals.
City Police 'A' ..... 1 goal.

Scindia Steam Navigation Company

The twenty-third ordinary general meeting of the Scindia Shareholders was held at the 'Scindia House' at 5 p.m. on Wednesday. After the notice convening the meeting was read, Mr. M. A. Master read the speech of the Chairman Mr. Walchand Hirachand. In view of the prohibition laid under Section 45(b) of D.I.R. said the chairman the publication of the accounts report or other documents relating to the operations of the Company is prohibited. The working of the Company, therefore, added Mr. Walchand, could not be reviewed by him as was done from year to year. He, however, informed the meeting that the Company's working during the year was fairly satisfactory enabling the company to declare a dividend of Re. 1 per share and a bonus at the rate of As 4 per share, free of income-tax. He, therefore, moved the resolution regarding granting of the above dividend and bonus.

After some discussion the resolution was adopted.

Hon Sir Rahimtoola M Chinoy, Mr. Dinshaw D. Romer and Hon. Sir Shantidas Askuran were re-elected as directors.

Mr. Bharucha moved that the same auditors as were appointed last year should be re-appointed. The proposition was lost.

Messrs. K. S. Aiyer and Co. and Mr. N. M. Raiji were then appointed auditors of the Company for the ensuing year.

WILL BRITAIN HEED?

Major C. R. Atlee stated in the Commons some time ago: "There are a number of extremely effective minorities who must be considered. There are the Sikhs, the Parsis, the Princes and the population of the Indian States." The reference to the Parsis has elicited a prompt and effective reply in the shape of a manifesto signed by about a thousand Parsis of Bombay. The representative character of the manifesto cannot be denied. The signatories include prominent leaders like Prof. P. A. Wadia, Mr. D. N. Bahadurji, ex-Advocate-General, Dr. M. D. D. Gilder, ex-Minister, Mr. K. F. Nariman, Dr. P. Bharucha and several others. They wholeheartedly support the demands of all political parties, commercial and industrial bodies that India must achieve, here and now, her freedom which is overdue, particularly at this hour so that with the glow of freedom burning within her she may effectively resist any foreign aggression." And to this end the signatories demand further that the accredited leaders of the country should be released immediately and negotiations started with them on the basis of declaring India a free country. A special and not the least gratifying feature of the manifesto is that its signatories do not ask for any special representation either in the Legislatures or the Services. They continue to follow the patriotic example set by Dadabhai Naoroji, Sir Pherozshah Mehta and Sir Dinha Wachha. The manifesto is altogether a worthy document and an example to all minorities, large or small. Would that all minorities could say with the Parsi leaders: "Expediency and policy apart, on moral grounds we clearly see that our future is indissolubly linked with that of our sister communities."

Action, Not Promises

We do not know whether manifestoes like this will have any immediate effect on men like Mr. Atlee or Mr. Amery. They may argue that there are other effective minorities or effective sections thereof which do not support immediate freedom. They may even create such minorities or sections. Just at present they have no will to transfer power to India and can devise a hundred excuses to withhold it from her. They may not change their policy unless the war situation or the internal situation in the country demands a change or some outside Power like America intervenes. The statement issued by a number of eminent Americans and published in our columns yesterday shows that by no means a negligible section of America unhesitatingly declares that "the time for mediation in India is now," that "action is required, not promises, and action now before it is too late," lest "the disasters of Burma and Malaya be repeated in India with even more effect." The fear may be less to-day than it was three months ago but it is bad statesmanship to start digging a well when the house is on fire. If Britain is sincere about making India free after the war, she stands to gain more by granting freedom now, with the necessary reservations about war-time administration.

Britain's Responsibility

Realising this position fully our American friends urge upon President Roosevelt and upon Generalissimo Chiang-Kai-Shek that "they recognise the interest of the United Nations in the Indian dilemma and use their good offices to ask the British Government and the National Congress of India and other leaders to open new conferences with mutual determination to find that way of action which will most speedily bring India into the ranks of our allies by beginning now the programme of her independence." They do not deceive themselves or others with the lie that Congress or Gandhiji is against helping war effort or against any negotiation. They rather point out that "Indian readiness to negotiate is proved by Gandhi's expressed desire to meet the Viceroy before he was imprisoned" and that "it is only to the benefit of the Allied Nations to take advantage of this reasonable attitude shown not only by Gandhi but by other Indian leaders as well." But so far the British Government has not only not carried on negotiations with Gandhiji but has even prevented the efforts of others like Mr. Rajagopalachari. Mr Amery stated in the Commons on Thursday that the granting of interviews with Congress leaders depended on the Government of India. Whoever is immediately responsible for the policy of blocking negotiations with Congress Britain will not escape its consequences.

El Agheila Prospects

Air Vice-Marshal Cunningham, who leads the R.A.F. with the Eighth Army, did not make any exaggerated claim when he told Reuter that they had practically wiped out the Luftwaffe and the "Regia Aeronautica" in Libya. Indeed, the smashing achievements of the R.A.F. and the American Air Force constitute one of the main reasons for the great victory of the Eighth Army at El Alamein, a victory which has sent Marshal Rommel precipitately to El Agheila 500 miles back. It is also an achievement on the part of Air Vice-Marshal Cunningham and his men who helped the R.A.F., too, to advance into Cyrenaica at the same terrific speed as the land army. The result is that Allied planes are now operating from Cyrenaica bases. Bad weather is seriously interfering with air activities. But let us hope it clears soon. For much again depends on the contribution of the air arm. The attack on an enemy merchantship off Misurata shows how Marshal Rommel is attempting to reinforce himself. Moreover, the El Agheila bottle neck cannot be captured without the same concentrated aerial assault as overwhelmed the Axis at El Alamein.

What strength Field Marshal Rommel possesses is not exactly known. But two things are already undoubted. He has one of the best defensive positions possible in the El Agheila bottle neck. And the Axis are doing every thing they can to send him men, equipment and aircraft. He will, therefore, be able to offer stubborn resistance which will be rendered still more stubborn by the knowledge that dislodged from El Agheila he will have to flee another 500 miles to Tripoli itself before being able to make any kind of stand. In fact, Air Vice-Marshal Cunningham himself admits the probability of a stand at El Agheila, adding "maybe a long stand as we have not yet met him on the defensive." But the struggle need not be unduly long in view of undoubted British superiority both on land and in the air and particularly if reports are true about commando landings in Rommel's rear and the approach of an Allied column driving from Chad.

Frankly Speaking

Japs And Burma

The R. A. F. and the American Air Force are continuing to strike on both flanks of the Japanese in Burma. And they are doing so with increasingly notable success. The Americans, particularly, have followed up their good work at Haiphong with a "Thanksgiving Day" raid on Bangkok in which they severely damaged a very vital military objective, the only oil refinery in Thailand. But while all this is welcome, a Chungking military spokesman has again uttered the warning that "Japanese reinforcements continue to be sent in large numbers to Burma."

Desperate Stand

The Japanese stand at Buna was fully anticipated. But they are displaying an unexpected measure of desperate determination to cling to their last stronghold in Papua which, once in Allied hands, will constitute a serious threat to their whole position in southern Pacific. That is why despite the grievous losses they suffered the other day they reinforced their beleagured garrison. What is more, they are, as General MacArthur's communique itself says, "holding the attacks by Americans and Australians". Buna will fall one day; that, we believe is certain. But what also appears certain is that its capture will not be easy.

Tunisian Battle

Like the diplomatic situation arising out of the British Government's treatment of the Fighting French National Committee, the Tunisian military situation remains somewhat confused. The reports do not present an entirely clear picture of the nature and speed of the Allied advance on land or of the struggle in the air. And observers keep pointing at difficulties regarding lines of communications— as also the determined challenge that the Luftwaffe is offering for mastery in the skies. The latest communique, however, records some important gains against the Axis land and air forces. Even otherwise, too, the prospects favour the Allies. But the fight is very obviously going to be quite hard and long.

"Bombay Chronicle Weekly"

On the occasion of the Akbar Quater-Centenary celebration in the city, to-morrow's "Bombay Chronicle Weekly" is publishing a number of special articles on the various aspects of the great personality of Akbar, with special emphasis on his vision of a United India. Mr. C. S. Sardesai, the well-known historian, writes about Akbar's constructive statesmanship; Mr. A.A.A. Fyzee, a noted scholar of Islamic history, analyses Akbar's efforts at evolving a common religion and establishing cultural relations between Hindus and Muslims; and, Dr. D. G. Vyas, our art critic, writes about the flourishing state of all the arts in Akbar's reign. Among other contributions in this issue, G. N. Acharya's article on foreign journalists in India has a distinctly topical flavour. And "Chronicler", on the Last Page, takes his readers on a conducted tour of 'Britain's lie-factory'—working overtime these days!

The British Press And India

To The Editor of "The Chronicle"

Sir,—Mr. H. R. Stimson has done well in coming forward with a frank statement disowning the authorship of the malicious and vulgar lies, which the Editors of the "Sunday Despatch" thought fit to present to their public as 'news' coming from their Special Representative in India.

The "Sunday Despatch" is not the only paper to draw on its powers of imagination. According to the "Picture Post", when Gandhiji started the Civil Disobedience Movement, "came a procession of white-clad children waving the green, white and red flags of the Congress Party and then a crowd of men and women, some armed with bamboo sticks and others with guns." (Yes, Sir, make no mistake about it. "Guns", says the report.). This sight, says the contributor, is to be seen "in any big city in India".

The "Daily Mirror" could not find any explanation for the closing down of many "Congress-supporting newspapers" other than that it was "of their own accord following reports of further incidents throughout the country."—Yours, etc.,

C. R. NAIR.

East African Plan For Textile Monopoly

"CHRONICLE" SPECIAL

The proposals of the Government of East Africa to grant sole monopoly to a special Corporation for the import of textile goods from India throw overboard the legitimate trading rights of Indian exporters. The scheme is based on the recommendation of the East African Civil Supplies Board insisting that the import of certain classes of piecegoods should be controlled through one channel. The argument advanced by the East African authorities is that the present methods of import of a large variety of grades by individual importers have failed to secure an equitable distribution of supplies at prices fair to the consumers, who are mostly 'Natives' and other low-income groups.

On the plea of securing the so-called fair price to the consumers the East African authorities propose to form a Corporation, the members of which will be selected from previous importers and others approved by the Government concerned for the sole importation of piecegoods from India. The minimum quantity of importation for qualification of membership to the Corporation will be determined on the import statistics of members between the years 1936 and 1941. The capital of the Corporation is fixed at £100,000 and the maximum shares allotted to any member will be for the value of £7,500. The proposed company will be the sole channel of importation from India of unbleached, bleached, coloured drills and kanikis. These goods cover approximately 55 per cent of Indian imports essential for the 'Native' population. Provision is made for the East African Civil Supplies Board to vary this list of imports as occasion arises. To guarantee the new Corporation a long lease and safe tenure, it is proposed that the East African Government should give reasonable notice before allowing resumption of free imports.

Indian exporters consider the scheme as an adroit move to squeeze them out of the trade and pass it on to non-Indian hands.

According to them, there is rigid price control in East Africa, unlike India, with drastic penalties for infringement. Practically no prosecutions for profiteering had been launched against merchants and this showed that the Act was working to the satisfaction of the consumers, though it yielded little profits to Indian merchants. It is openly questioned that if the object of the East African authorities is to control the varieties and grades of import, why should they not achieve their object through Indian merchants who have been in the line for long. Moreover, a Corporation with a monopoly is not a guarantee of fair price to the consumers, as is evident from the disclosures of the activities of the United Kingdom Commercial Corporation. Indian merchants are fighting for the principle of reciprocity and freedom of trade, and hope to carry the Indian public and the Government of India in their fight for the just rights of the Indians abroad.

AKBAR'S IMPERIALISM WAS TO UNITE AND RULE

Bombay's Homage To India's Great Ruler

Homage to the many-sided personality of the Great Emperor Akbar, as conqueror, administrator, apostle of communal harmony, First Indian Nationalist and patron of art and literature, were paid by speakers at a public meeting inaugurating the Akbar quater-centenary celebrations, at the Cowasji Jehangir Hall on Friday evening. Mr. B. J. Wadia, Vice-Chancellor, Bombay University, presided.

Earlier in the evening, an exhibition of Moghul Art was opened at the Convocation Hall by Diwan Bahadur K. M. Jhaveri.

In proposing Mr. B. J. Wadia to the chair, Mr. M. R. A. Baig, Sheriff of Bombay and the president of the Akbar Quater-Centenary Celebration Committee read out messages wishing success to the work of the Committee by Sir S. Radhakrishnan and others

In the course of his speech, Mr. B. J. Wadia said that Akbar who came to the throne very early in his life decided to rule his subjects according to new principles. He realised that rule by the sword was no rule at all and unless his rule was based on the goodwill of the subjects his Empire would not be lasting. The greatest contribution that Akbar made for the benefit of his subjects was the unity which he achieved among the different sections of his people. In selecting officers for all important posts he had regard solely for efficiency and was not moved by communal considerations.

FIRST INDIAN NATIONALIST

The present celebrations were intended to pay homage to one who was an enigma of history, a complete foreigner with Arabic and Persian blood in him but had lived and died the greatest nationalist Indian not only during his time but for all time.

Dewan Bahadur Jhaveri said Akbar had not only dreamed but had achieved the unity of India. He realised that without unity between the two warring communities there could be no peace. So he married from a Hindu family. This was also the underlying idea of his new religion Deen-e-Ilahi.

The speaker narrated the story of how he conferred a Jahgir on Vithaleswar Rai, the son of the founder of the Vallabhacharya creed and had also issued a firman giving full freedom to the cows of the Jahgir to graze where they liked.

Mrs. Hansa Mehta said that Akbar was a ruler whose Imperialist policy was not to divide and rule but to unite and rule. He discouraged the custom of Sati, encouraged widow remarriage and insisted upon the consent of both the bride and bridegroom before contracting marriage.

Rev. John MacKenzie, said there was a tendency to-day to consider an illiterate person as an outsider to culture but Akbar was not only a keen student of philosophy and history but was a stimulator of scholarship and art.

Mr. A. A. A. Fyzee said that India paid homage to one who was a military genius, a great administrator, a patron of learning, an artist in life and above all one who lived and died for the unification of India.

Mr. Francis Low said that Akbar was a great soldier but unlike other conquerors, after he had conquered and consolidated, he settled down to devise means to promote the prosperity and happiness of the people. As a people beset with difficulties similar to those which Akbar resolved Mr. Low hoped that the people of India would derive inspiration from Akbar.

AKBAR'S TASK AND TO-DAY'S TASK

In proposing a vote of thanks Mr. S. A. Brelvi said that the centenary celebrations were a challenge to them, having regard to the fact that the greatest achievement of Akbar was the creation of unity. Never in the history of India had there been so much communal bitterness as at present. Never had the communal problem seemed so insoluble. He hoped that they would be able to wipe off this shame and establish a free India in which all communities could play their part in co-operation and harmony. Continuing Mr. Brelvi said that their task was more difficult than the task which faced Akbar as he was an autocrat, although a benevolent one. The task of achieving unity in a democracy was more difficult; and just because of that their glory in achieving it would also be greater. And when 100 years later the fifth centenary of Akbar would be celebrated he hoped that the people of that generation would have cause to think of the achievement of the present generation as something more glorious than that of Akbar himself.

Moghul Art Exhibition

Declaring open the Moghul Art Exhibition organised by the Akbar Quater-Centenary Committee at the Convocation Hall on Friday evening, Dewan Bahadur K. M. Jhaveri stated that the paintings and examples of craft-work at the exhibition demonstrated the continuity of the Indian traditions and symbolized the unity of cultures and communal interest in the Moghul India. Over and above that, continued Dewan Bahadur, they demonstrated the indelible impression which the Moghuls had left on the arts and crafts of India.

The exhibition consisted of paintings, Bidri ware, brass ware, arms and armoury and drapery. A few coins of plaster casts and ink impressions of inscriptions had also been added to give some idea of the coins and epigraphy of the period. Some samples of the art of caligraphy, the development of which had taken rapid strides during the reign of Akbar and Jehangir were also displayed through the 'quatas' and 'waslis' included in the exhibition. As stated by the Dewan Bahadur, though the exhibition was not exclusively representative of the period of Akbar, it gave a fair idea of the traditions and trends of the arts and crafts in the Moghul Empire, of which Akbar was truly the founder.

"SINGLE NATION-HOOD, OUR POWER AND GLORY"

Sir Mirza Ismail On Ideal Before University Students

PATNA, Nov. 27.

"If there is any real message that I have for you, especially to the youngmen with whom our future rests, it is just this that, throughout this country, we must not in any sense whatever, be separate: ours must be the virtue, ours the power and glory, of a 'single nationhood'," said Sir Mirza Ismail addressing the convocation of the Patna University at the Wheeler Senate this afternoon.

To me, India one nation, is a most inspiring thought and a most reasonable one. This is the land of all of us, to whatever race or creed we may belong.

"It is our absolute duty to forge all this diversity into a single comprehensive state, within which there shall be absolute liberty for each composing element, and absolute justice, and confidence of justice between them.

UNIVERSITY'S TASK

Declaring that it was the task of university to encourage deliberately the fusion of Hindu and Muslim cultures into an Indian culture which by natural process was already coming to pass, Sir Mirza Ismail said: "This fusion of culture can be hastened and guided and enriched by any university which deeply cares about it. There are curricular changes that would help; there are ways, too, outside the curriculum; but above all, this is a matter of attitude on the part of those who teach."

OVER 1,200 GRADUATES RECEIVE DEGREES

A little over 1,200 graduates, including girls, most of whom attended, received their degrees and diplomas.

For the first time in the history of the Patna University the Diploma in Master of Surgery was conferred on Dr. Kapildeoprasad. The M.D. was awarded this year to Dr. Madanprasad.

Sir Mirza Ismail distributed the degrees to the graduates.

"HAMARA HINDUSTAN"

A packed audience at the Eros Theatre witnessed "Hamara Hindustan" organized by Mrs. Tara A Baig and her collaborators on Thursday, November 26. The programme provided a varied fare of Indian and western dances, music. Goan folk songs, sketches and a costume pageant. Classical Indian dance was presented by the artistes of the Nrityalayam (Menaka's Dance Centre) in two impressive numbers—"Todayam"—a prelude to Kathakali and "Kaliya Damanam"—in the North Indian technique. Menaka herself appeared in "Kaliya Damanam' in the role of Radhika and interpreted it with her characteristic grace and freedom.

The Goan Folk-song and Choral Society contributed two interesting items—"Reaper's song" and "Dakini songs". The dances were remarkable for their gay rhythm and simplicity of technique. Vocal Indian music was presented by Mr. K. C. Dey— the popular blind singer of Bengal in two songs. Western music was in the able hands of Mr. Mehli Mehta and his orchestra, the rendering of "Valse Fantasia" was a delightful number. Dances were provided by Mr. Joshua Reubens and his school of dancers. "Through Time"—a costume pageant. A "Pianoforte solo" by Shanti Seldon, "Tarrannums" by Prithviraj, "Divided Westan" and sketches were the other items on the programme.

FROM SECRET RADIO STATIONS

(By Dr. Listener)

From RUSSIA: (The Hitler-Youth): A 17 year old S. S. German soldier captured as prisoner by the Russian army was asked about various questions and said: "I have belonged with pride to the Hitler Youth for 5 years. I started at the age of 12. From the beginning it was our main business to do military drill. Besides that we have learned very little, because everything else is worthless. My parents? They have nothing to do with me. They are annoyed that I belong to the Hitler Youth instead of being proud of it, but they do not dare speak about the party because they know that I am under oath obliged to inform our boss about all that is uttered against the party, and then the parents would be put in a concentration camp. To the army I came two years ago because I was curious to see how all that I have learned looks in practice. What-Kill? Why not? To kill an enemy is a sacred duty and a pleasure. Civilians? Also. That is all the same, soldier or civilian, enemy is enemy and has to be killed, and we are entitled to kill because we are a better race. The others are only slaves and must work for us or, if they refuse, must be killed. That is a real pleasure, because it is done for our Fuehrer, Heil Hitler".

"And what"—asked the Russian officer—"if the enemy would kill you, such a nice young boy, were that not a pity?"

"Me kill?"—wondered the young S. S. boy—"Why me?"

WHOLE VILLAGES WIPED OUT BY MALARIA

Doctors work ceaselessly

More than 16% of total deaths in India each year are caused by malaria. There are cases on record of whole villages being wiped out by this terrible scourge.

Magnificent work is being done by doctors and Public Health Authorities. But often their efforts are defeated by the diet problem. Thousands die simply because their exhausted system cannot digest food which would keep up their strength.

But, there is a food that can be assimilated by the weakest—a food that quickly rebuilds wasted tissues and pours new strength into the exhausted body.

That food is Horlicks. Now widely used in hospitals everywhere, Horlicks has proved itself to be an ideal diet in all forms of fever.

NATIONAL SAVINGS BANK, LIMITED

Gratifying Progress During First Year Of Existence

The first year's activities of the National Savings Bank Ltd. were reviewed by Mr. Sakalchand G. Shah, the Chairman of the Bank, and Mr. N. C. Khorana, Managing Director, at the first ordinary general meeting of the shareholders at the registered office of the bank, Apollo Street, Fort, Bombay, on Friday at 5 p.m.

Mr. Sakalchand G. Shah, the Chairman in moving the adoption of the report of the directors and audited accounts of the bank for the period ending 31st October 1942 said:

Gentlemen,

I have great pleasure in welcoming you here to this the First Ordinary General Meeting of the shareholders of the bank. The Report and the Accounts have been in your hands for over a fortnight and, I am sure, you have studied the same with interest and formed your own conclusions about the working of the Bank. I may mention that the bank was started during abnormal times and having regard to the existing state of affairs, both internal and external, it may be claimed with feelings of satisfaction, if not pride, that we have started well and are forging our way ahead.

It is customary, particularly in European countries, to utilise the occasion of a bank meeting to make a general survey of the economic affairs and conditions. In this country also, lately, this practice is finding favour and the Chairmen of our bigger banks give us the advantage of a general survey at the Annual meetings. I hope, it would not be considered presumptuous on the part of a newcomer, if we were to emulate that example and to give, briefly, a resume of the background against which we are meeting to-day.

War factors dominated throughout the period of the year under review. With the fluctuating fortunes in the theatres of war, we witnessed, in smaller measure, changes and reactions in our spheres of activities. It is difficult during such uncertain times to give a precise picture of the industrial and economic conditions, as the usual data such as index numbers, price movements, wage levels and production statistics are not available in that complete and detailed form in which they are presented under normal circumstances. A closer examination of the available data, however, points to increased activity in all branches of our economic life. Our Seaborne trade, particularly on the export side, has shown a satisfactory increase, at least in value, if not in quantum. Production in all our organised industries has undergone a tremendous spurt: share prices are indicating a firmer tone and the index of fixed yield industrial securities is advancing. Subject to limitations inherent in war conditions, there is, therefore, a general trend of progress in our trade and business conditions.

INTERNAL CONDITIONS MUST IMPROVE

In the sphere of monetary and banking conditions, however with which we are more directly concerned, there are certain factors which call for comment. Cheap money conditions continue; the deposits with banks are increasing and there is a feeling of surprise that notwithstanding all the increased industrial activity within the country, the demand for money is comparatively small. The call rate remains round about a quarter per cent; bankers are reluctant to accept deposits. Government are able to get their requirements of funds, both long-term and short-term, at what may in war times be deemed to be very favourable terms. In fact, the ideal set up by the Authorities of making this a 3% war, seems to have been almost achieved. Government have been able to gather over 120 crores by their different loans for war purposes at about this rate. The short term rates for treasury bills also continue to be as favourable. The demand and the time liabilities of the scheduled banks which represent the deposits made by the public with them, have increased by over 190 crores since the beginning of the war, against which, the advances made by banks have gone down by over 20 crores. The question of finding remunerative employment for this large volume of frozen credit, is a problem calling for immediate solution. One cannot help mentioning that increased industrial and trade activity is the only outlet which will relieve the position and in order to achieve that an improvement in the internal situation within the country is a desideratum.

INCREASED NOTE CIRCULATION

There has been a considerable expansion of the currency in circulation. In fact, the notes in circulation now stand at the colossal figure of over 520 crores, while the corresponding figure in 1939, just before the war, was 172 crores. This has been partly necessitated by the accumulation of sterling resources. The huge purchases made by His Majesty's Government for war requirements are being paid in sterling in London and the Reserve Bank is obliged in order to liquidate the corresponding obligations here to increase the volume of notes in circulation. The problem therefore of our mounting circulation is one which is very closely associated with the

disposal of our sterling resource which now stand at over 400 crores. The position was relieved, to a certain extent by the repatriation of sterling loans. Out of a total sterling debt of over 276 millions, we have retired by the end of March 1942 over 188 million and would be repaying another 70 millions in January 1943. While these operations have led to India emerging as a creditor country in the world market, the problem of dealing with our sterling balances in a more effective manner remains yet to be tackled. We, as bankers, have a direct interest in this question, inasmuch as, it is also interlinked with the problem of our currency position within the country. It would be highly desirable that the Government of India should enlist the assistance, in a consultative capacity, of some of our prominent bankers and financiers to formulate a plan for the disposal of our sterling resources and, consequently, for inducing a healthier tone in our internal currency and monetary position.

Having made these general remarks, I would now draw your attention to the figures relating to our own Bank's working. Our deposits have increased by 44 lakhs, i.e., from 14 lakhs in September 1941, to 58 lakhs in October 1942. The corresponding figures of advances and investments which were nil in September, 1941 now stand at Rs. 29 lakhs. Out of a total working capital of over 66 lakhs, the cash in hand and with banks were over 33 lakhs the actual advances being only overs 11 lakhs, investment in Government securities stood at about 17 lakhs. I am mentioning these just to indicate that your Board are exercising an abundant measure of caution in their policy governing investment and advances.

Coming to the working of the Bank, a perusal of the figures given in the balance-sheet will give you an idea of the gross income earned during the year, of the orthodox policy followed by the Board in avoiding transactions in unsecured or personal loans and the low level of working expenses.

It gives me pleasure to record that your Directors have been animated by a high sense of team spirit. The co-operation between the executive and the members of the staff on the one hand and the Board on the other, led to very smooth working in day-to-day affairs, The first year has resulted in a small profit of Rs. 1,392-6-1, which should, indeed be deemed as satisfactory. The bank attained the status of a scheduled bank on 22nd October 1942 and you can reasonably expect an In stitution to develop on right and satisfactory lines in the years to come. We are also taking pains in selecting the proper personnel for buliding up our organisation. The Managing Director Mr. N. C. Khorana, and some of his Assistants are trained men with long years of banking experience. I am confident that this feature will prove to be an added advantage in times to come.

MANAGING-DIRECTOR MR. N. C. KHORANA'S SPEECH

Mr. N. C. Khorana, Managing Director, then said:

Chairman, Directors and Shareholders,

You have just heard a speech from our Chairman full of thoughts, ideas and principles on the subject of Banking and particularly Banking during the present abnormal period of war, and therefore I will only place before you, a few facts and suggestions for which, I solicit your co-operation in building up our institution.

In the first place, the bank belongs as much to the shareholders as to the depositors, borrowers and constituents and the bank has to render efficient service to all, including present and prospective constituents of our bank.

The following table will show the progress of the bank in various directions.

Date.	No. of a/cs.	Deposits	Advances & investments,	Working capital.
		lacs	lacs	lacs
8-9-41	125	14	nil	15
30-10-42	1160	58	29	68

1. DEPOSITS

The aggregate deposits and total number of accounts indicate the confidence inspired by the Bank amongst the public. The term deposits amount to about one third of total deposits and this feature of the institution enables the bank to cater for long term loans at comparatively higher returns. With the "reservoir of goodwill" commanded by the Board of Directors, coupled with the efficient and prompt service, the deposits are bound to mount up day by day.

2. INVESTMENTS & LOANS

The Bank's capacity to earn profits depends upon the nature and quality of investments and advances. Your Bank has not as yet extended its investments to all fields and has more or less restricted the same to Government securities while the advances are spread over bullion, and standard merchandise as a matter of caution in the early stages of its development.

In distributing the lendable funds of the Bank the range of choice has extended over sufficiently large number of securities and the classification will show that the bank's funds are utilised in advances against marketable goods viz., gold, silver, piecegoods, yarn, sugar etc. A part of the Bank's funds are also invested against the security of marketable shares, and thus the distribution of loans is so well chalked out and the margin of security is so high that these can be converted into cash without any difficulty at a reasonable notice.

I may point out here that the demand for advances in the market is rather low and the banks are flushed with money to such an extent that funds are not lendable at reasonable rates. The current deposits with scheduled banks have reached a huge total of Rs. 325 crores, and banks find it difficult to utilise funds for investment and yet undertake obligations for sudden withdrawal by their current account holders with the result that the call money is quoted at as low a rate of interest as 1|4% P.A. The banks are unable to utilise these current funds to any appreciable extent. In spite of all these difficulties your Bank has acted on the principle of short term loans and 'turnover' of advances and has been able to gain a decent margin for the bank.

The situation is more hopeful and it is expected that your Bank will soon be able to find remunerative channels for advances and investment hereafter as your bank has since been scheduled.

3. DUPLICATE RECORDS

Owing to the abnormal conditions due to the entry of Japan in the war, it was considered advisable to maintain duplicate record of all the documents of the bank and accordingly such duplicates have been made and maintained out of Bombay at a safer place.

Since the commencement of business as you know, your Bank has opened three sub-offices in Bombay under direct control of the Head office, one at Kalbadevi, one at Mandvi, and one at Ghatkopar while a full-fledged branch has been opened at Amritsar. The total working of the Amritsar branch has reached a figure of about Rs. 8 lacs during the short period of five months and that the branch has become a paying proposition.

Your Board of Directors are now considering the question of opening branches at other important centres where the Bank has business connections and negotiations are proceeding in respect thereof.

SOUND BANKING

Above all, it is in the fitness of things to mention that all operations are conducted on sound banking principles. A sub-Committee of the Board of Directors meet oftener and all important matters pass through more than one brain. Amritsar branch too has a Local Board of Directors consisting of four influential and prominent businessmen of the city. Sense of devotion and close contact with the customers are the outstanding features of our management and every care is taken to safeguard the interests of shareholders. depositors and constituents.

OBJECTS OF THE COMPANY

The Company has been formed for the purpose of acquiring from Joseph Thomas, Esq., six Tea, Coffee, Cardamoms and Rubber Estates, known as the Quard Hitlow Group of Estates situate near the Municipal Town of Koppa in Kadur District, Mysore State and comprising an area of about 2,320 acres of free-hold land with all buildings, machinery, etc., and with a view thereto to enter into, adopt and carry into effect an agreement with the said Joseph Thomas, in terms of the draft for identification initialled by Mr. A. Dorairaj, Legal Adviser of the Company, and for the other objects set out in the Memorandum of Association, a copy of which is attached hereto and shall be deemed to form part of this Prospectus.

THE ESTATES

Situation, Crops, Rainfall and Soil

The Estates which are already planted with coffee (both arabica and robusta), tea, rubber and cardamoms are situated in the Kadur District of Mysore State. Their situation is ideal in all respects being at an altitude varying from 2,000 to 3,000 feet and enjoying a rainfall of approximately 120" per annum. There is adequate labour and the soil, whose composition includes nitrogen, potash and in places even lime, is so fertile that manuring has scarcely been necessary for many years.

ACREAGE UNDER CULTIVATION

The area under cultivation is 2,320 acres, comprising:—

		Coffee Ar.	Coffee Rob.	Tea	Rubber	Card.	Reserve	Total
1.	Sidra Bannu ..	50	330	54¼	2½	15	91¼	543
2.	Bibben Luke ..		187	83½	—	5	70½	346
3.	Quard Hitlow ..		170	49½	62½	—	86	368
4.	Devar Khan ..		200	58½	10¾	15	65¾	350
5.	Gooboor ..		350	83½	40¾	50	5¾	530
6.	Kerkesia ..	80	70	—	—	5	28	183
	Acres ..	130	1,307	329¼	116½	90	347¼	2,320

The late Mr. M. P. Meppin, a Planter of considerable experience in Mysore and late Economic Superintendent, observed in his valuation report of the Estates made in March, 1937, as follows:—

"This is an unique and valuable solid block of about 2,500 acres of planted land, the like of which does not exist in any other part of Mysore State. It is connected with the South Kanara and the West Coast by well-kept Government roads and to the rest of India by the M. & S. M. Railway by a short run of 55 miles on a first class provincial road. It is opened out and connected all through the various adjoining estates by well-traced motorable roads. It is furnished with pucca built and commodious bungalows and outhouses, writers' houses, cooly lines, stores, pulping houses, machinery, turbines and drying grounds and all the essentials for working and going concerns." Report by Mr. A. K. YEGNANARAYANA AIYAR, M.A., Dip. Agr. (Cantab). N.D.D. (Eng.)

The Estates were inspected and valued in November, 1940, by Mr. Yegnanarayana Aiyer, Retired Director of Agriculture in Mysore, and sometime Officer on Special Duty with the Imperial Council of Agricultural Research. He reports thus as to the Robusta Coffee plants which form the major portion of the Estates:—

"The Robusta in the Estates consists firstly of well-grown bushes of full bearing age. These are very fine specimens and as good as can be seen anywhere They carry a surprisingly heavy crop which may go up to even 9 cwt. an acre. The soil and rainfall conditions here evidently suit the Robusta admirably and the variety really luxuriates in these conditions. They form a good indication as to the possibilities of the future when the whole area comes of bearing age."

Of Tea he says:—

"The first class of plants, viz., the full-grown bushes are very well-grown, have a strong, many-stemmed foundation, and healthy normal stand. The bushes, both large and small, are very healthy."

The Estates have no tea factory nor the Company intend to incur any capital expenditure at present in erecting a factory as an arrangement has been made with a neighbouring tea estate to manufacture tea at favourable rates.

Mr. St. John Hunt, Member, Coffee Expansion Board, and Director, Kalasa Tea and Produce Company, Ltd., who is reputed to own some of the best coffee areas in Mysore, visited and valued the Estates in October, 1942. He has valued the Estates at Rs. 9,02,612. His valuation does not include the cost of the five bungalows, outhouses, garages, writers' quarters, 51 sets of cooly lines, machinery, plant and motor vehicles, etc. The Directors have succeeded in fixing the sale with the Vendor at the sum of Rs. 8,00,000 for the whole of the property including buildings, plant, machinery, motor vehicles, etc., and standing crops and a part of that purchase price is payable at the option of the Company by the issue to the Vendor of fully paid-up shares in the capital of the Company of the face value of Rs. 1,00,000.

Below is an extract from Mr. St. John Hunt's Report:—

"In valuing these Estates the following have to be considered:

"The Estate is a growing concern, in which nearly all the capital expenditure by way of opening up, clearing roads and paths, buildings, machinery and planting up of the major part has all been fully met.

"The Estate is not a single-product plantation, but raises four important products, each on a large enough scale to constitute a separate plantation for each product.

"There is already a considerable return as large areas of each of the products are in full yielding stage.

"The very large acreage of 2,320 which comprises the Estate with a consequent saving of overhead charges, makes for substantial total profits, even when the per acre profits are low, and other advantages."

No Minimum Prices For Short-Dated Loans

NEW DELHI, Nov. 27

By a notification issued by the Government of India to-day the 4 per cent loan, 1943, the 5 per cent Income-Tax Free loan, 1945/55, and the 5 per cent United Provinces Loan, 1944, have been removed from the list of securities for which minimum prices were fixed by a Notification dated September 2, 1942.

These three loans are high interest bearing and short-dated, and their market prices would be in the ordinary course of events gradually decline towards par with the approach of maturity. This would involve periodical revision of their minimum prices which it is desirable to avoid.—A.P.
